WILL IT CURE ME?

That's the personal question a woman asks herself when she reads of the cures of womanly diseases by the use of Dr. Pierce's Favorite Prescription.

Why shouldn't it cure her?

Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, ulceration and female weakness. It always helps. It almost always cures.

"I commenced taking your medicine, 'Favorite Prescription,' nearly a year ago for chronic inflammation of womb, and can truly say it is the only thing that ever did me any good," writes Mrs. L. C. Wagner, of 125 Edwin Street, Toronto, Ontario, Canada. "I could not walk any distance before using it. After taking six bottles of your 'Favorite Prescription' I find I can walk without difficulty and am greatly benefited in general health. Would advise all suffering women to use Dr. Pierce's medicine."

Dr. Pierce's Pleasant Pellets — These are the Original Little Liver Pills, first put up over 40 years ago, by old Dr. R. V. Pierce. They've been much imitated but never equaled. Smallest, easiest to take and best. They're tiny, sugar-coated, anti-bilious granules, a compound of refined and *concentrated* vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. *Permanently* cured, too, by their mild and natural action, these little Pellets gently lead the system into natural ways again. Their influence *lasts*.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatine.

Kodol Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

Digests What You Eat

Rests the stomach, rebuilds the tissues and gives firm flesh.

Dollar bottle holds 2½ times as much as the trial, or 50 cent size. Prepared at the Laboratory of E. O. DeWitt & Co., Chicago, U.S.A.

CHINESE BOYCOTT.

A dispatch from Peking says that the question of Chinese exclusion from the United States continues chiefly to occupy the attention of the Chinese. The extent and depth of the feeling manifested astonishes foreigners, and is regarded as the evidence of the growth of the national sentiment or public spirit which five years ago would have been inconceivable.

Among many instances cited as evidence of this, it is said that a Chinese comprador has refused lucrative appointment with an American company. Advertisements of American goods continue to be refused by the native newspapers, and letters and telegrams from all parts of China, as well as from abroad, are being received urging the central government to take a firm stand.

The chief obstacle is the question of coolies from Hawaii and the Philippines. It is urged that there is no reasonable objection to the landing of coolies in Hawaii, where they did not complete with American labor, while Chinese immigration has long been established in the Philippines.

These points the Chinese regard as essential, but it is thought unlikely that they will be conceded by the American government, hence the apparent deadlock. With a view of facilitating a settlement China on Monday proposed to send a special mission to Washington, but American Minister Rockhill declined to entertain the idea. The Chinese deplore the risking of American good will, but claim to have genuine legitimate grievances.

In the meantime the boycott of goods from the United States continues, and the anti-American campaign is increasing in vigor. The American Minister has applied to the board of foreign affairs to check the movement, and Viceroy Yuen, of Chili province, has issued a proclamation on the subject, but its efficacy is considered doubtful.

Killed by Lightning.

Clarence R. Moore, one of the best known citizens of Crisfield, Md., was killed by lightning Monday night. Mr. Moore was on his way to his home in the suburbs, when overtaken by the rain. He stopped at the store of Mr. George C. Lawson, which is within about 100 yards of his home. He had been in the porch of the store about 5 minutes and was conversing with a number of friends when lightning struck a telephone wire which hung near the porch, and the lightning was drawn by Mr. Moore's bicycle. The wheel was charged with electricity, and as Mr. Moore was leaning thereon he was immediately killed by the shock. He was removed to his home, and, though skilled medical assistance was summoned it was found impossible to revive him. The same bolt of lightning which killed Mr. Moore struck the residence of Mr. L. C. Nelson, tearing a hole in the wall where the telephone hung. Fortunately neither Mr. Nelson nor any of his family was at home. Several other houses were struck, but little damage was done.

They Died Together.

Rather than be separated for months, Henry Eichenrodt, bandmaster on the United States battleship Alabama, and his young wife died together yesterday at Paterson, N. J., under tragic circumstances. The couple were married eight months ago. Mrs. Eichenrodt was 26 years old and her husband 35 years. She frequently told her relatives and friends that she was exceedingly happy with her husband. He had been away for a few days at a time, but recently he received orders to join his ship for a long cruise. Yesterday afternoon a number of friends and relatives gathered at the home of Mrs. Petzold, mother of the bandmaster's wife, to bid them farewell. Both Mr. and Mrs. Eichenrodt seemed to enjoy the festivities, but toward the close, after the guests had begun to depart, they were found lying on a bed. The man was dead and the woman died before a physician arrived. Death was due to carbolic acid and illuminating gas.

Tragic End of a Trained Nurse.

Relatives of Miss Annie L. Elmore, who died at the Garfield Hospital in Washington Monday night, arrived there yesterday and claimed the body, which will be sent to Dranesville, Fairfax county, the former home of the young woman, for interment. There will be no inquest, Coroner Nevitt having issued a certificate of death from an illegal operation, in which, however, no one but the young woman was implicated. Miss Elmore was about thirty-five years of age, and was a trained nurse. She became ill last week while at a house on Fifteenth street northwest. Yesterday the body of a child was found in a trunk in Miss Elmore's room at 1237 H street northwest. The young woman was to have been married yesterday at Colvin Run, Va., to Henry Johnson, a farmer. Mr. Johnson arrived in Washington yesterday, only to learn that his intended bride was dead and that her body, together with that of her infant, was at the morgue.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption Coughs and Colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of Throat and Lungs. At E. S. Leadbeater & Sons, druggists; price 50c and $1.00, guaranteed. Trial bottle free.

Death of Bank Robber.

"Big Frank" McCoy, bank robber and partner of the late "Jimmy" Hope, of Manhatten Bank robbery fame, died at the Metropolitan Hospital on Blackwells Island New York yesterday afternoon of a complication of diseases. McCoy had been penniless and almost without friends for years. He was taken to Bellevue Hospital on June 18 from a Third avenue saloon in a dying condition. On Wednesday last he was removed from Bellevue to the Metropolitan to die. The fact that he was going to the island seemed to have a depressing effect on the former burglar, and he drew an object lesson from his fate for young men. "If I only had my life to live over again," said McCoy, "I would not end it in this way."

NOTICE TO CITY TAXPAYERS.
Collector's Office, June 19, 1905.

Notice is hereby given that the tax bills for 1905 are now in the hands of the collector. The attention of parties interested is respectfully called the following extract from the revenue bill of that year:

Upon all bills paid in full by the 1st day of July, 1905, the collector of Taxes shall allow a discount of ten per cent, and on all bills paid by the 1st day of September, 1905, he shall allow a discount of five per cent, and on all bills not paid on the 1st day of December, 1905, there shall be assessed and collected a penalty of five per cent upon the amount of said bills, and on all bills remaining unpaid on the 1st day of June, 1906, interest at the rate of six per centum per annum shall be paid.

Taxpayers would do well to call and pay at once in order to avoid the rush and crowd usually present on the last days in which the discount is allowed.

Bring a list to make sure you get bills for all your property, as the collector will not be responsible or allow the discount after the time fixed by law.

AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, JUNE 28, 1905.

CAPTAIN MAHAN, an American naval expert, has written the lesson of the recent battle of the sea of Japan. After allowing for the demonstrated superiority of the Japanese in training and experience, he concludes that the superiority of the battleship and of the gun, for the main purposes of naval warfare, has not been shaken. He says the inefficiency of the torpedo boat destroyers was shown when the already injured Russian battleships were able to repel the combined attack of the whole Japanese flotilla. Capt. Mahan must possess information concerning the battle not published in the newspapers, for from these reports it was shown that the Japanese torpedo boats inflicted most of the injury sustained by the Russian battleships and this belief is so general as to make most laymen differ with the captain in his conclusions.

THE Appellate Division of the State Supreme Court in New York has decided that a stockholder has a right to inspect the stock book and copy the names of stockholders if he wishes to. If he is a broker and desires to buy or sell with the other stockholders this fact does not impare his right to inspect the books and the right to inspect carries with it the right to copy, for he cannot be expected to remember everything. The case arose over the stock book of a national bank, and the court said that the United States revised statutes give their stockholders and creditors the right to inspect the stock books, and that the stock corporation law of the State gives shareholders and judgment creditors the right to inspect and make extracts from the stock books.

POLICE COMMISSIONER MCADOO, of New York, gave evidence yesterday that he intends to enforce his order against a premature celebration of the Fourth of July by appointing a firecracker squad. It is composed of one roundsman and five patrolmen. It is to look after the 500,000 or more small boys of New York who have begun dischargiag fireworks. Each patrolman of the squad, it he does his share of the work, is to look after 100,000 small boys. Imagine one Alexandria policeman looking after even 100 boys! Why, looking after one sometimes makes him so dizzy that he can't see anything at all.

DISPATCHES from Warsaw say that the luckless Jews in that city are being made to suffer for the acts of the socialists. The latter, it is said, are responsible for all the disorders, but the police are afraid to arrest them, dreading assassination, and in order to induce the officials in St. Petersburg to believe that they are doing something the police arrest Jews right and left and pretend they are the turbulent classes. The Jews have been footballs for certain nations almost from the dawn of history, and their wanderings and tribulations are still in evidence in some climes.

THERE SEEMS to be some doubt as to whether the Panama canal will ever be constructed. The astonishing statement is made that at the rate of excavation, accomplished in the month of May, the completion of the canal would require more than a century. The cost of the excavation has increased at the same time to three and four times the unit figures which were used in estimating the total cost of the waterway. These are the conditions which have alarmed the President and caused Engineer Wallace's return to the United States.

TODAY'S dispatches from Russian Poland show that a serious state of affairs still exist in that part of the world. Blood has flowed freely during the past few days, and there is every reason to believe that more is to be drank in by earth before the disorders cease. Russia is tormented by enemies at home and abroad. A dark cloud hovers over the domains of the Czar. There may be a silver lining in it, but it has been invisible for a long time.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., June 28.

One death, three recoveries, and three new cases is the yellow fever record from the isthmus of Panama, cabled to the War Department today by Governor Magoon. Yellow fever may fairly be said to be epidemic on the isthmus although it is either not of virulent form or the medical treatment is very successful. Since the first day of June there have been 64 cases of the disease, including those named in today's report. There have been eleven deaths.

A successor for John F. Wallace, who has resigned as chief engineer of the Panama canal project, is now occupying the minds of those interested in the work of the commission. It is believed that a railroad engineer of foremost ability will be selected to take Mr. Wallace's place. There is an understanding in high quarters that owing to the absolute necessity of first class ability, at the head of the canal engineering department, there may be an alteration in the policy of the commission relative to the engineer's authority. In this case Mr. Hood, of the Southern Pacific, who stands at the head of the railroad contingent of civil engineers, may be prevailed upon to take charge of the work.

Acting Secretay of War Robert Shaw Oliver, today granted authority to the New York and Long Island Railroad Company to construct a tunnel under the East river from 42d street, New York, to 5th street, Long Island City. Secretary Oliver also granted the railroad company permission to sink a shaft to the tunnel from Man-of-War reef at the southern end of Blackwells Island. It is not stated just what the project of the railroad company is or the cost of the tunnel.

The Comptroller of the Currency this morning received a dispatch informing him that the Vigo County National Bank of Terre Haute, Ind., had been closed by order of the bank directors. This is the bank in which a shortage of $16,000 was discovered a few days ago in the cashier's accounts. Although Cashier Conzman's bondsmen turned in $60,000 to protect the bank a run followed. The last report of condition on May 29 gave the capital stock of the bank at $150,000, deposits $1,251,282.14 and resources and liabilities $1,564,968.70.

An important petition alleging discrimination by certain western and southern railroads in favor of the Standard Oil Company was filed with the Interstate Commerce Commission today by the Gulf Refining Company, an independent concern having its principal offices at Port Arthur, Texas. The complainant alleges that the defendants, acting in concert for the purpose of preventing the marketing of the Gulf Refining Company's oils in the north, have established unjust and unreasonable rates.

James E. McGowan, a conductor on the Junction car of the Columbia road, was attacked with vertigo while collecting fares on his car between Benning station and the Junction this morning and fell from the car. His head came in contact with an obstruction, crushing his skull, and he died almost instantly.

No Trace of Miss Rogers.

A dispatch from Saranac Lake, N. Y., last night states:

"There have been no developments today in the search for Mary Rogers, the wealthy young Virginia woman who disappeared from this place last Saturday.

"Mr. Raleigh C. Smith, of Baltimore, a brother of Mr. Willoughby N. Smith, and Mr. William C. T. Rogers, of Leesburg, a brother of Miss Rogers, arrived this evening, and are very indignant at the means used by the local authorities to ascertain the identity of the missing girl by means of 'John Doe' proceedings. Ex-Gov. John Walter Smith, of Maryland, and his wife drove over from Loon Lake, about 20 miles, to take dinner with Mr. Willoughby N. Smith and to express their sympathy for the unfortunate occurrence."

A dispatch from Leesburg, says:

"The latest information received here by relatives of Miss Mary Rogers is that contained in a letter from her nurse, Miss Janney, giving the circumstances of the occurrence, which agree substantially with the press dispatches. Intimate friends of Miss Rogers have abandoned all hope of her being alive, though her family have offered liberal rewards for information as to her whereabouts. Mr. Alexander Rogers, her father, is in a very weak condition, and all information is withheld from him."

Saranac Lake, N. Y., June 28.—Although the search for Miss Mary Rogers, of Leesburg, Va., who mysteriously disappeared on Sunday last from a sanitarium here, has been continued, no trace of her has been found. The only new developments in the case is the abandonment by the authorities of all suspicion of criminality in connection with the disappearance of the young woman. The admission is made even by those who instituted the John Doe proceedings against Willoughby N. Smith, a prominent lawyer, of Baltimore, who accompanied Miss Rogers and a nurse, that the unfortunate young woman wandered away while temporarily deranged, as a result of her illness. It is now believed that she is either lost in the woods or has been drowned in the Saranac lake or Saranac river.

TELEGRAPHIC BREVITIES.

The inter-collegiate regatta will be held this evening at Poughkeepsie, N. Y., and thousands of visitors are there to see the races.

In the first race, today, in the Kiel regatta, the schooner yacht Susanne, winner of the race from Dover to Heligoland, for the Kaiser's cup, finished first. The Hamburg was second, while the Emperor's yacht, Meteor III, was third in crossing the finish line.

Miss Amy Phipps, daughter of Henry Phipps, of Pittsburg, Pa., the partner of Andrew Carnegie, was married today at St. George's Hanover Square, London, to the Honorable Frederick Guest, son of Lord Wimborne. There were magnificent presents of jewels from relatives, from Mr. Carnegie, Aga Khan, the Hindoo Prince, and from Ambassador Whitelaw Reid.

The work of rehabilitating the Equitable Life Assurance Society is progressing today in New York. The Board of Directors met at noon, expecting to hear from the trustees, but as the three distinguished gentlemen holding these positions were not yet ready to make recommendations, the directors adjourned until 3:30 p. m. Grover Cleveland, Justice Morgan O'Brien and George Westinghouse went into conference shortly after one o'clock. They had planned to meet earlier in the day, but for reasons not made public the conference was deferred.

News of the Day.

The car shops of the Baltimore and Ohio Railroad in Keyser, W. Va., and 38 cars that were undergoing repairs were destroyed by fire yesterday.

Graeme Stewart, several times a candidate for Mayor of Chicago on the republican ticket and prominent in the business life of the western city, is dead.

Lord Curzon has informed the British ministry that unless modifications are made in the orders giving General Lord Kitchener supreme command of the military forces he will resign the viceroyalty of India.

As anticipated John F. Wallace, who resigned as chief engineer of the Panama canal and a member of the commission, has accepted a $60,000 position with a New York corporation. According to statements made yesterday in official circles Mr. Wallace resigned because he was not given much more power than he has at present and a larger additional compensation for his services.

Virginia News.

An effort will be made to induce the United States government to purchase the Trigg shipyards at Richmond.

Francis X. Burke, of Falls Church, Va., died at Georgetown University Hospital on Tuesday evening, in the sixty-third year of his age.

The local-option election held in Woodstock yesterday was a complete victory for the "wets" by a majority of 34. The vote was 102 for issuing licenses and 66 against.

It is rumored that there will be further investigation of the educational affairs of Virginia by the State board. It is said that excessive charges are being made for some of the supplies, but nothing has been said to indicate who is concerned or who has profited thereby.

As the result of a runaway accident Monday near Millwood, Clarke county, Courtney B. Jones, son of Rev. J. C. Jones, was thrown from his buggy and seriously injured. His left leg was broken in two places, and he was badly cut and bruised. His wife, with her infant child, leaped from the vehicle in time to escape injury.

Mrs. Shepherd K. Smith, charged with having beaten to death her son Ralph, aged 7 years, was put on trial for her life in the Manchester Hustings court yesterday. She pleaded not guilty. Practically the whole day was consumed in securing a jury. Mrs. Smith and her husband have been in the Manchester jail ever since the day, weeks ago, when their little boy was found dead on the floor in his mother's room, the little body covered with bruises as though inflicted by a stick or a strap. Mrs. Smith admitted that the child had been given to evil habits and that she had whipped him to correct him. The child's father, who was employed in Richmond, was arrested in New York, to which city he had gone just before his child's death.

Wedding in Norfolk.

St. Paul's Episcopal Church Norfolk yesterday evening was the scene of a brilliant wedding, when Miss Jane Ellis Tucker was married to Rev. Luke Mathews White.

The bride's attendants were her sisters, Miss Eleanor Tucker, as maid of honor, and Misses Lila and Maria, as bridesmaids.

The ushers were Messrs. Chas. Brent, of Lexington, Ky.; Christie Bennett, of Columbia, S. C.; Frank Abbott, of Belleview; Louis Carter Harrison, of Richmond; William C. Whittle, jr., and Augustine Tucker.

The bride entered the church with her brother, Rev. Beverly D. Tucker, jr., who gave her away. She wore a robe of white crepe de chine, trimmed with duchess lace and veil caught with orange blossoms. Her flowers were Caesarine roses.

The groom and his best man, Mr. Gilbert C. Greenway, of New York, met the bride at the chancel where the ceremony was performed by the bride's father, Rev. Dr. Beverly D. Tucker, assisted by her brother, Rev. St. George Tucker. Rt. Rev. A. M. Randolyh, Bishop of Virginia, pronounced the benediction.

Mr. White is the son of Mr. and Mrs. David Edwin White, of Huntsville, Ala., and is a great-great-grandson of Governor Spottswood, of the old Virginia colony. He was recently ordained a deacon at the Theological Seminary near this city. Mr. and Mrs. White left immediately after the ceremony for a trip north, and on their return they will reside at Warsaw, Va.

The German Reply.

Germany's reply to the French note on the subject of Morocco was presented during a conference between Prince Radolin, the German Ambassador, and Premier Rouvier at the Foreign Office yesterday. While most friendly in form and entirely lacking a peremptory tone, Germany's response none the less maintains the position that the Moroccan question must be regulated by a conference of the powers without any agreement in advance limiting the scope of such conference.

This was accompanied by the presentation of Germany's general point of view in such an amicable spirit as to disarm the suspicion entertained concerning Germany's ulterior motives.

Deed of a Jealous Man.

When returning from church Sunday night near Denmark, Rockbridge county, 15 miles from Lexington, Charles Cash and Lydia Entsminger were stopped by Grover Ford, son of James Ford, who, after asking who they were, opened fire on them with a revolver, shooting Cash through the brain and Miss Entsminger through the shoulder. Cash has since died, and Miss Entsminger, who is 14 years old and very pretty, is not expected to live. Jealousy is alleged to have been the cause of the shooting, as both men were paying attention to the young lady. Ford escaped and was last seen near Mill Mountain. Both men worked at Longdale furnace, Alleghany county. Ford is 20 years old and Cash was 18.

City Council.

A considerable amount of business was transacted at the regular meeting of the City Council last night. The reports of the Auditor and City Treasurer were submitted, as well as that of the operations of the light department of the city. The Common Council passed the ordinance providing for advertising for bids for furnishing electricity to the city, but it was laid over in the Board of Aldermen.

BOARD OF ALDERMEN.

Vice President Curtin presided in the Board of Aldermen in the absence of President Sweeney.

When the ordinance providing for advertising for bids for furnishing electricity to the city was received from the lower board,

Mr. Ballenger asked that it be laid over in order to afford him time to examine into it more closely. The ordinance, he said, was voluminous and he was not prepared to vote for it from the fact that he was not thoroughly familiar with it.

Mr. Hill said the matter had been before Council for about two years. Alexandria was now about 25 years behind the times. The city is not in a position to install an electric plant, and others should be allowed to do so. He saw no good reason for laying the ordinance over.

Mr. Ballenger replied by saying this was the first time the ordinance had been read in the Aldermen since he took his seat as a member. At any rate he was not prepared to vote for it and moved to lay it over.

Mr. W. H. Sweeney called attention to the fact that the ordinance merely authorized Council to advertise for bids for furnishing electricity. When the same shall have been received members would have the opportunity to vote for the acceptance or rejection of the bids. The speaker hoped Mr. Ballenger would withdraw his motion, as should the board concur in the action of the Common Council and Council receive a satisfactory bid the work of installing an electric plant could not be commenced before fall, as the advertisement for bids would have to be published for 30 days. There was a desire to have the plant constructed before cold weather sets in.

Mr. Ballenger acknowledged the correctness of all Mr. Sweeney had said, but still insisted upon being given time to post himself before voting. He desired to see electricity in common use in Alexandria, and was in no wise opposed to the movement being made toward that end, but, at the same time, wanted to vote intelligently. The committees to whom the ordinance had been referred doubtless understood its provisions, but he was not so familiar with it.

Mr. Fisher agreed with Mr. Ballenger. The ordinance, he said, had never been before the present Board of Aldermen before. In fact it was a new ordinance.

Mr. W. H. Sweeney said it was substantially the old ordinance which had been before Council at times during the past two years, but, in deference to members who were not prepared to vote upon it, he was willing to let the ordinance lie over.

A vote was finally taken upon concurring in the action of the Common Council which resulted as follows: Ayes, Messrs. Hill, Burke, Marbury, Curtin and W. H. Sweeney—5. Noes, Messrs. Ballenger and Fisher—2. It being supposed that it required six votes to pass the ordinance, Mr. Burke changed his vote in order that he could move a reconsideration.

Mr. Fisher claimed that it took an equal number of votes to reconsider as it did to concur in the action of the Common Council.

An appeal was made to the chair, but no one seemed to be sufficiently posted to controvert Mr. Fisher's assertion, and the debate became animated.

Mr. Fisher said a resolution looking to the same end of the ordinance under consideration had been referred to his committee (general laws), and he did not want it to die in the committee room. He, like Mr. Ballenger, wanted time to consider, and said he would endeavor to have a meeting of his committee and present a report on the resolution at the next meeting of Council provided the ordinance was laid over for two weeks.

Mr. Burke said he had no desire to rush the ordinance through.

Mr. Fisher said he would vote to lay the ordinance over provided the members assure him he would be given an opportunity to submit a report on the resolution referred to his committee before a vote on the adoption of the resolution was taken.

The members were not disposed to enter into this agreement and a vote on a motion to lay the ordinance over for two weeks prevailed, only Mr. Fisher voting in the negative.

After a large number of papers which had been received from the Common Council had been read and the action of the lower board concurred in,

Mr. Hill said that since the ordinance providing for the electric franchise had been laid over, he had ascertained that it had in reality been passed by the first vote taken, it requiring but 5 votes, not 6, as had been supposed.

Mr. Fisher raised a point of order—the matter had been disposed of.

It was finally agreed to let the matter rest until next meeting, and the board adjourned.

COMMON COUNCIL.

The board was called to order shortly after 8 o'clock.

The Auditor's and Treasurer's annual reports were submitted by the finance committee. They show receipts of $132,893.49 and expenditures of $123,972.46.

Mr. Bryan submitted a summary of the finances and said:

The Auditor's report of the general fund gives the receipts at $132,895.49, the expenditures at $123,972.46, leaving a balance in the treasury of $8,923.03. The receipts were in excess of estimates, and the expenditures, as is always the case, more than estimates, or about two thousand dollars over, the most important extra appropriations being: $1,000 for fish wharf, $300 for the Light Infantry, $250 for firemen's parade, $200 for Alexandria Kindergarten and $300 for the Associated Charities.

It is unnecessary to enter into any extended comments, as much has been reviewed in former statements, and the city reports, when prepared in book form, will as succinctly explain our fiscal affairs as can I.

In presenting the appropriation bill in May last it was pointed out how far in excess were our estimates of receipts as compared with former years. The gratifying condition of affairs can be best illustrated by a comparison of our finances today and the year beginning June 1, 1880. At that time those who had long struggled with a debt of such proportions as to almost dishearten them and which was also a cause of anxiety to business men, bankers and property owners, as well as to the clerk, mechanic and laborer, the last mentioned the first to feel the effects of hard times, found their efforts successful, and had by a promise to our creditors, in order to settle the city debt, started into an era of rigid economy—hence this reference. The appropriation bill for the year beginning June 1, 1880, amounted to $79,625, of which $43,500 was for debt and interest on same; only $2,000 for all kinds of street work; only $3,600 for fire department, and only $7,200 for public schools, and our bonds then worth about fifty cents. How different today when we refer to the appropriation bill recently passed, carrying an appropriation of $129,600, only $32,110 of which is for principal and interest on debt, while we appropriate $37,640 for street and sewer work; $14,500 for public schools and $6,500 for fire department. Commenting on the decrease in appropriation for interest, and also the large increase for streets, schools and fire department, it is not an inopportune time to call attention to the increase of $3,200 for the police force, as it required only $8,506 in 1880, while now $11,700 is required. Instead of bonds seeking purchasers the investor is seeking our bonds, willing to pay par for them. On page 31 of the Auditor's report for the year 1880 the debt and interest is given as $1,051,588, and if those figures are correct it would have required that amount of money on the first day of July, 1880, to free the city of debt; today, or on Saturday next, if our debt, including the bonds of 1902, was offered for redemption, principal and interest, it could be paid for about $820,000. The comparisons here made are not for the purpose of exalting ourselves or discrediting our predecessors; upon the contrary, so well and unselfishly was the work done in 1879-1880, under many discouragements and at times failures, that thanks rather than criticism are due those who kept their courage at that time. We have progressed and can and should point out where we were weak as well as where we are strong.

More than a year ago, with others representing the finance and school committees, I met some members of the school board to discuss money matters, preparing first for use some notes bearing on schools, appropriations, salaries, enrollment, attendance, etc. I have those notes now, will not refer to them, but will read from a report of the school board meeting, published in the Gazette May 5 last, and follow with some further remarks if Council will indulge me.

I have before me figures from official records, giving the assessments by wards of the real and personal property listed for taxation for the years 1903-04-05, the aggregate value being fourteen million, four hundred and sixty-two thousand, nine hundred and seventeen dollars ($14,462,917). Our tax rate is $1.90 on each hundred dollars, with a discount of 10 per cent. for prompt payment. The payments during the discount period represent much more than 75 per cent. of the collections. The tax collector is paid a commission for collecting and some bills cannot be collected. The statement that the City Council can be made to do certain things if seven members out of twelve school trustees so desire—and the further statement (at least by inference), that the City Council has pursued a niggardly policy, or displayed a pernicious disposition towards our public schools finds no warrant in law or facts. The law is as follows: (See Acts General Assembly 1902-03-04, page 826.)

"The Council shall levy a tax upon all real and personal property not to exceed thirty cents on the one hundred dollars, or Council may in its discretion make an appropriation in lieu of such levy."

This Council does—has done—and observed the law. The facts are as follows: Certainly during the last three years, and as previously stated the assessments for the years 1903-04-05 aggregate $14,462,917. If thirty cents had been specifically levied for schools, each and every dollar collected, no discount allowed, no charge made for collection, no bills erroneous or insolvent, and the whole amount credited to the schools, they would have received $43,388.75. Strange as it may appear to those who are uninformed, it is none the less true, that during these same three years, Alexandria contributed $44,900, to its public school system. The State apportions 10 per cent. of its levy and the capitation tax receipts to the schools. Yet as more than half of the capitation taxes, and a not inconsiderable portion of both the real and personal property, are returned delinquent by State collectors, the schools receive only what is collected. Apply this rule to Alexandria's city tax apportionment and our schools during the past two years and the present one, would receive between $6,000, and $7,000 less than they have. I think Alexandrians, and those who make laws for them, take much pride in our public schools; certainly I do; but it will be with regret, and to their injury, should they ever be allowed to be a toy for small politics. Desirable, indeed necessary, as they are and will ever be, yet many other departments have claims as urgent and just as essential; and all have to be considered by towns and cities and an equitable distribution of the money of the people properly observed.

In conclusion, speaking for myself, and I think also for the finance committee, we should remember that Council has passed an appropriation bill; the people have recently elected persons to fill various offices. Every officer and every employee knows the pay they are to receive for their services and can be informed kindly, but with no uncertainty, that we are paying all we can and will not make further appropriations for salaries or assistants.

Mr. Bryan also commented on statements made in the School Board by Mr. A. H. Thomson and said that Mr. Thomson had entirely reversed the positions taken by himself and the committee at the meeting of the finance committee to which he had alluded, the committee having told Mr. Thomson exactly what Mr. T. said he had told the committee. He also said that Mr. W. F. Carne had declared in the City School Board that Council had nothing whatever to do with the schools except to provide money to carry them on and yet at the same meeting Mr. Carne introduced a resolution that the City Council be informed that the City School Board desires that the next school session shall be full ten months, which showed an inconsistency.

A new ordinance to authorize the granting of an exclusive right to furnish electricity to the city and citizens of Alexandria was submitted and read.

Mr. Bryan explained that this ordinance differed from the former somewhat in reference to bonds and, also, because the ordinance required the city in case the Council required the wires to be put under ground to pay for the construction of the conduit. He also said that each bidder would be required to give a certified check for $500.

Mr. Spinks urged that no action be taken tonight and spoke at length in deprecation of the sale of the electric franchise.

Mr. Bryan said the proposal now was not to grant any franchise but merely to advertise for bids.

The ordinance was agreed to, yeas 12 noes 2—Messrs. Williams and Spinks.

The ordinances providing for vitrified brick streets on certain squares of Prince and Lee streets were read and unanimously adopted.

The committee reported in favor of having an ordinance prepared requiring that all new electric railway poles shall be of iron. The report was adopted.

An appropriation of $2,000 for continuing the Royal street sewer south of Franklin street was referred.

The committee on light submitted the annual report of the Clerk of Gas showing that the gas works had turned into the City Treasury during the year $10,000. Mr. Uhler, chairman of the committee, said the report showed a total profit on the year of about $15,000 after deducting $5,400 for gas used in the city hall, engine houses, &c.

Mr. Bryan inquired what was the cost of gas in lighting the city.

It was stated that the cost for the year had been $5,403, and then Mr. Snowden said that this was more than the cost of lighting the entire city before the introduction of electric lights. The whole city was then lighted for $5,100.

Four hundred and fifty dollars was appropriated to build a brick kitchen for the city jail.

An appropriation of $3,500 to macadamize Washington street from Queen to Orinoco street was referred.

A resolution to have King street cleaned every Saturday night after 12 o'clock was referred.

A resolution by Mr. Strauss that the price of gas be reduced to $1.00 per thousand feet was referred.

Mr. Marshall moved to appropriate $225 to lay a granolithic pavement on the Alfred street side of the Peabody school building.

Mr. Snowden said a new brick pavement had recently been laid on that street and the board would rather have the amount for school work. The matter was referred after Mr. Marshall had said that the city must set the example if improvements were to be made.

A letter from the police board communicating Mayor Paff's plan for the reorganization of the police force and asking action towards an amendment of the charter in respect of police changes was read.

Mr. Bryan moved to refer the matter to a special committee composed of a member from each board and the presidents of the two boards.

Mr. Marshall moved to refer the matter to the committee on police. Both he and Mr. Spinks protested against what they interpreted as an effort on the part of the chair and others to belittle the ability of the committee on police, and Mr. Spinks asked the chair to relieve him of any further connection with that committee.

Mr. Bryan said he was a member of the police committee but thought the chairmen should serve on the special committee as they somtimes acted as Mayor and knew something about the working of the police force. He said, as a matter of fact, the measures should go to the finance committee as an appropriation was asked for.

After several other motions Mr. Spinks said that this paper should go to the police committee alone.

Mr. Burke moved the reference of the paper to the finance committee, the police committee and the presidents of the boards.

Pending this discussion Mr. Marshall and Mr. Williams objected to statements which had been made by the president of the board in reference to the action of the claims committee, etc., and Mr. Williams construed as a reflection, one of the statements and said he would not stand for any disparaging references.

The president said he would not further answer the remarks of Mr. Williams but disclaimed having made any disparaging statements.

Mr. Burke's motion was then carried.

Ex-Mayor Strauss hoped that the committee would not constitute a second star chamber meeting. He wanted to be present.

When another communication from the police commission concerning the biennial election of policemen came up Mr. Williams, sarcastically, moved to add the chairmen of the two boards to the committee to which the measure was referred, saying "these gentlemen sometimes acted as Mayor." The chairmen asked not to be named on the committee, but Mr. Williams' motion was carried.

Council was delayed until a late hour while the Aldermen acted upon papers sent in to that body from the Council.

BOARD OF ALDERMEN.

At a regular meeting of the Board of Aldermen of the city of Alexandria, Va., held June 27, 1905, there were present:

Messrs. Hill, Burke, Marbury, Ballenger, Curtin, Fisher, and W. H. Sweeney.

In the absence of the President, Vice President Curtin presided.

The following were received from the Common Council and laid over until the next meeting:

An ordinance to provide for the grading, paving and curbing of Lee street from the south crossing of Prince street to the north crossing of Duke street under certain conditions.

Ordinance to provide for the grading, paving and curbing of Prince street from the east crossing of Fairfax street to the east crossing of Lee street under certain conditions.

Moroccan Crisis Passed.

Paris, June 28.—From expressions made in official circles to the correspondent of the Publishers Press, today, it is believed that the Moroccan crisis has passed. Premier Rouvier and Ambassador Radolin, of Germany, were seen and while they talked guardedly, the inference was given that only minor questions of differences remained and that the conflict was no longer a general political one. The premier and the German ambassador are having frequent conferences. An entente is considered near at hand.

Cannibal Gypsies.

Buda Pesth, June 28.—Twenty members of a gypsey band have been arrested charged with cannibalism. It is alleged that they have been traveling through the country stealing children whom they killed and ate. In one of their wagons, according to the police, at Jaszbreny, Hungary, where they were arrested, a portion of the body of a child was found in one of their wagons. Eighteen children have disappeared along the route taken by the gypsies in their wanderings through the country.

Russian Troops Rebel.

Vienna, June 28.—A dispatch from Lemburg tells of a mutiny of soldiers in the Mokotoff camp, near Warsaw. A portion of the troops were ordered to get ready to proceed to Manchuria but they rebelled. A detachment of other troops were ordered to suppress the mutiny. They fired several volleys into the ranks of the mutineers, killing many of them.

In Mad Chase.

Millions rush in mad chase after health, from one extreme of faddism to another, when, if they would only eat good food, and keep their bowels regular with Dr. King's New Safe Pills their troubles would all pass away. Took Out Licenses.

Justice Caton had before him this morning a number of colored men who were acting as agents or representatives of several beneficial, insurance and other societies, all charged with doing business without licenses. All but one were required to take out the proper license and the one coming under the exemption law was dismissed.

Memorial Services.

Sarepta Lodge of Odd Fellows last night held memorial services in memory of two deceased members who have died during the past year. The lodge was kindly assisted by Prof. Renner. The second and third degrees were conferred on a candidate. The District Deputy has been invited to install the officers on Tuesday, July 11th.

Junior Order of Mechanics.

Alexandria Council, No. 33, Jr. O. U. A. M., will entertain Vienna Council, No. 97, of that place, tomorrow evening. Belle Haven Council of this city has also been invited to be present. The annual election of officers of Alexandria Council will also take place that evening.

The weather was unseasonably cool again last night, and this morning the temperature was as cool as that of early fall.

Train Wrecked.

North bound passenger train No. 38 of the Southern Railway was wrecked about 7 miles west of this city at 6:30 this morning. With the exception of the engine and the observation car at the end of the train, the coaches composing the train were derailed, overturned and more or less smashed. Miraculous as it may seem, but three persons were hurt, and their injuries are said to be slight. They are: Telfair Stockton, of Jacksonville, Fla., cut on leg and hand and bruised; Miss Alice Hutchinson, of Leesburg, Va., slightly bruised, and a boy, son of Rev. William Turner, of Atlanta, Ga., slightly cut on head.

No. 38 is due at 6:30 and was running slightly behind time when the accident occurred. The train was in charge of Conductor J. W. Harvey and Engineer Frank Larmand, and was running at a high rate of speed. A short distance this side of Springfield, and near the first culvert west of the double bridge all the train save the locomotive and the observation car suddenly jumped the track. Most of them turned over and were thrown from the tracks, while the iron work of the coaches was twisted into all sorts of shapes. Smashed wood work and distorted iron beams and rods and upturned wheels produced a serious picture. Those who went to the scene of the wreck say they never witnessed a more serious demolition of rolling stock. The tender had been forced against the engine, smashing the iron cab and coming within about ten inches of Engineer Larmand, who had a miraculous escape from instant death.

When the news of the accident reached this city rumors of a terrible loss of life and the maiming of many were soon circulating in every direction, and relatives and friends of the train crew as well as those of passengers known to be on the train were cast into terrible anxiety until the facts were ascertained, and the greatest relief was experienced when it was positively known no one had been killed and none seriously hurt.

A relief train with the company's surgeon aboard soon left for the scene and later passed through this city on its way to Washington to which place the injured were taken. The passengers, mails and baggage were transferred and sent north on another train, and the track used by south bound trains was utilized by those running in both directions in passing around the wreck.

The accident is supposed to have been caused by the fall of a break beam, a bolt having been found some distance west of the scene of the accident.

A wrecking train was soon on the scene and the work of raising the overturned cars was begun at once.

The Italian Cruiser.

The Italian cruiser Dogali, now lying in front of the city, still attracts large numbers of people to the river front. Hundreds viewed the vessel yesterday evening from the piers, among them many of the Italians employed on the railroad work near Alexandria. Numbers of small boats carry parties close to the cruiser in order that they may more closely inspect her. The Dogali came from Brazil, where she penetrated up the Amazon as far as a vessel of her draft could safely go. It was the intention of the Italian Navy Department to send the vessel to the Pacific, but as change of commanding officers was close at hand she was sent to visit United States ports and New Orleans and Pensacola were called at before visiting the capital of the nation. This port gives her good anchorage and being near Washington make it pleasant for all on board. Capt. Gregorio Rocca is in command, but he is to be relieved in New York, which port will be the next visited. The ship is fitted with Marconi wireless telegraphy.

The French cruiser Jurien de la Graviere, from the West Indies, is expected to pass in the Virginia capes on Friday, bound for Washington or Baltimore. It has been nearly forty years since a French man-of-war came up the Potomac river. A cruiser of that nation anchored off this city during the civil war, and a Russian fleet lay a short distance north of Fishtown about the same time, but of late the appearance of foreign warships off this port has been as angels' visits. It is often suggested that such vessels should make more frequent calls at the capital of the United States, and should the Jurien de la Graviere come here she will the the third foreign man of war that has visited us during the past seven years.

Work at a Standstill.

Work on the highway bridge across the Potomac river continues at a standstill, owing to the strike of the International Bridgemen and Structural Iron Workers' Union against the Pennsylvania Steel Company No attempt has has been made to replace the striking bridgemen and resume work on the bridge. So far as can be ascertained, no action has been taken by Col. Leach, officer in charge of the improvement of the Potomac, looking to placing the contract for the bridge in the hands of another company. Before such action could be taken it would have to be approved by the Chief of Engineers of the army, Gen. Mackenzie, and the Secretary of War.

Property Sales.

Mr. Park Agnew has purchased from St. Mary's Church the old Yates's garden property at the southern extremity of the city, except the residence and land surrounding, which belongs to Mr. Levi Huffman.

Mrs. Kate McGahey has sold to Mr. J. B. Fitzgerald a house and lot on the east side of Patrick street, between Duke and Prince.

Mr. B. C. Hall has sold to Mr. I. P. Force a house and lot on the north side of Wolfe street, between Pitt and St. Asaph.

Pay for Soldiers.

Capt. R. H. Atkinson, formerly captain of Company F, Third Virginia regiment, has received a letter from Maj Sol Cutchins, of Richmond, stating that the status of the claim of the Virginia volunteers who served in the Spanish-American war for pay from the United States government from the date of volunteering to the day of mustering in has been definitely fixed by the Court of Claims, and that the amount due the troops will be paid as soon as the Auditor for the War Department approves the claim.

To Go Into Camp.

The Alexandria Light Infantry will leave Saturday evening at 6:30 o'clock on the electric railway for Falls Church, where the members will go into camp until the following afternoon, when they will return home by the turnpike.

Why We Recommend Orrine To Cure Drunkenness.

In taking the agency for Orrine, the liquor habit cure, we thoroughly satisfied ourselves that it was an article of genuine merit, and that the company, which is located in Washington, D. C., deals squarely and lives up strictly to the guarantee. "If the cure is not made the money will be refunded."

Since selling Orrine numerous cases have come to our knowledge that have been cured of the horrible liquor habit by this meritorious article, which strengthens the nervous system and destroys the craving for whisky, beer, or other alcoholic stimulants. Orrine is prepared in two forms. No. 1 should be given to cure the patient without his knowledge. It can be put into coffee or food as it is tasteless, colorless and odorless.

We think that when the excessive drinker is approached properly he will be willing to be cured. If he consents, purchase Orrine No. 2, which is put up in pill form. Either form sells at $1.00 per package. Step into our store and receive full information regarding Orrine, the remedy that really cures the liquor habit. If you will write to the Orrine Company, Inc., Washington, D. C., they will send you free a book on "Drunkenness," in a plain paper wrapper.

We have great confidence that Orrine cures the drink habit. Sold by E. S. Leadbeater & Sons, druggists, Alexandria, Va.

Postoffice Matters.

Mr. Thomas M. Cragg, first substitute in the postal service in this city, has been appointed to a clerkship in the postoffice.

The city has been redistricted, by which means carrier service is to be extended, especially into the business centres.

LOCAL BREVITIES.

Grace Church Sunday School gave its annual excursion to River View today.

The Washington-Southern Railway Company is widening the roadway at the approach to the bridge across West End road.

The only case before Justice Caton for trial this morning was that of James Washington, colored, charged with disorderly conduct. He was dismissed.

The game of baseball played yesterday evening between the Alexandria Athletic Club and the Old Dominions resulted in a victory for the latter by a score of 23 to 21.

At the meeting of the committee on light last night Mr. W. J. Arrington was appointed fireman at the electric light works in place of Mr. Glasgow, deceased.

Chief Webster, of the police force, stated this morning that the law against shooting firecrackers, &c., would be enforced, nothwithstanding reports to the contrary.

Lieutenant Smith and Officer Knight on upper King street this evening arrested a man who gave his name as Flore Maglen, who is charged with robbing Michael Labareno, of Washington, of $105 about a month ago. Maglen was locked up.

The sewer at the intersection of Cameron and Union streets is broken in several places, causing much inconvenience to people conducting business in that vicinity. The odor which rises from the sewer is extremely obnoxious, and complaints are becoming loud.

Today's Telegraphic News

Troubles Renewed.

Odessa, Russia, June 28.—A renewal of the troubles which have kept this city on the anxious seat for the last two days occurred last night. An unknown striker threw a bomb in a cathedral, killing a police inspector. The perpetrator of the outrage was badly wounded in the explosion. Conflicts between the people and police have occurred at several points. Col. Echebanoff and Assistant Chief Police Inspector Tolkatchew were both injured during the fight which occurred. The tramway service to the suburbs of the city has been interrupted.

Warsaw, Poland, June 28.—The police just now are directing their attention to arresting Jews in order to make it appear that they are taking an active part in quelling the disturbances which have occurred here. Last night a raid was made on the Jewish quarter and several hundred Jews, including many leaders of the Jewish bund, were arrested. These arrests were continued this morning.

The authorities are afraid of proceeding against the socialists, who are the real instigators of the recent riots, as they fear assassination at the hands of the socialists in retaliation. In order to make a show of activity for the benefit of the officials at St. Petersburg they have made the raids on the non-socialistic Jews, charging them with being responsible for the outrages.

The city has been divided into four military districts for the purpose of keeping order and each district is under separate military control.

All but sixteen of the factories resumed operations this morning and the city has quieted down to a great extent. The activity of the troops has been responsible in great measure for this change in conditions. The miners in all the collieries of the Dombrowa district have gone on strike. No disorders have occurred so far.

Mutiny on Russian Battleship.

Odessa, June 28.—The crew of the battleship Kniaz Potemkim Tavrichesky, of the Black Sea fleet, mutinied because of harsh treatment, and murdered their officers. The mutineers threatened to bombard the town.

The battleship is cruising at sea, the crew fearing to land, while the authorities are hesitating to make arrests, fearing bloodshed if they attempted to board the vessel.

London, June 28.—The McNabb Rougier Company, big shippers at Odessa, have received confirmation of a battleship mutiny in the Black Sea, off the port of Odessa. They have no additional details except that Odessa is in a state of great excitement. In London shipping circles fears are felt for the safety of fifteen British merchant vessels now at Odessa.

Washington, D. C., June 28.—United States Consul Herman at Odessa, Russia, reports to the State Department as follows: "Russian transport Kniaz Potemkin and one torpedo boat arrived here yesterday evening. All their officers had been murdered at sea and their bodies thrown overboard. The men threatened to bombard the town. Situation is serious Black Sea fleet is expected at Odessa today."

Deliberations to be Secret.

Washington, D. C., June 28.—Russia and Japan have reached an agreement that the deliberations of the peace commissioners in Washington shall be absolutely secret.

The demands of Japan are not to be made public. These is to be no hint from the plenipotentaries or from the respective governments during the settling of the commissioners as to what either government has had to concede in reaching a satisfactory conclusion.

As a high authority said today in commenting upon this understanding:

"The session of an American grand jury will be a public assemblyage compared to the sittings of the peace plenipotentaries."

Such is the scope this understanding that the Japanese terms will not be known even to the Russian plenipotentaries until the formalities of organization have been completed and the consideration of peace demands becomes the regular order of business.

The only public announcement from the commissioners will be their final agreement, after their signatures have been attached to the treaty. This understanding was the result of the negotiations between the two governments relative to the selection of a place of meeting for the commissioners. Russia's objection to the United States when proposed by President Roosevelt as a compromise, was the pro-Japanese sentiment. The Czar expressed the fear that free and unbiased results could not be secured here, because of the freedom of official expression and the independence of the press. When Japan met this objection by pledging secrecy, Washington was accepted by Russia.

The President at Harvard.

Boston, June 28. Harvard is today celebrating her 269th commencement and it proved to be the greatest in her history. The old university entertained some of her most distinguished sons, gave degrees to men of national prominence and announced some of the most significant gifts made in its long history. Governor Douglas was unable to be present at the exercises, but was represented by Lieutenant Governor Guild. At 2:30 this afternoon the exercises of the alumni association will take place in Memorial Hall at which President Roosevelt and the recipients of the honorary degrees will speak. Promptly at 9:30 o'clock, President Roosevelt, accompanied by Lieut. Gov. Guild, left the home of Bishop Lawrence, where he had spent the night, and was escorted by the Lancers to Massachusetts Hall, where he was given a hearty welcome by President Eliot and fellows of Harvard. Later he took his place with the class of '80, in the commencement procession, from Hollis Hall to Sanders Theatre.

At 2 o'clock the President attended the alumni festivities at Memorial Hall, where we will make a speech later in the day.

The War in the East.

Tokio, June 28.—In an official report which has just been received, Field Marshal Oyama recounts the occurrences at the front on June 26, as follows: "Our cavalry occupied Kusyong, 10 miles north of Kyongsyong, in northern Corea, on June 26. The enemy attacked our force in the vicinity of Changchiatien, twelve miles northwest of Kwanghing, on June 26, but was repulsed."

Father John Banished.

Berlin, June 28.—The Morgen Post states that the Czar has banished Father John of Kronstadt to a monastery located at a desolate point on the coast of the White Sea. The decree has been issued, according to the Post, as a punishment for gross immorality on the part of Father John, and for irregularities in his affairs which have recently been discovered.

Fatal Fall.

R. B. Graham, 65 years old, who was a captain in the Confederate army and formerly an employe in the Civil Service Commission, fell from a fire escape on the fifth floor of the Chapin apartment house in Washington about 2:30 o'clock yesterday afternoon and was instantly killed. Almost every bone in his body was broken as a result of the fall. Captain Graham was a lawyer and had an office at 631 Pennsylvania avenue. He was a native of North Carolina, son of an ex-Governor and his relatives are all more or less prominent in the politics of the State, several of the family being eminent jurists. Friends of Captain Graham say he was of a cheerful disposition and they know of no reason why he should commit suicide. His apartments were on the second floor and it is something of a mystery how he came to be upon the fifth floor from which he fell.

A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of Piles. "I can truthfully say," writes Harry Colson, of Masonville, Ia., "that for Blind, Bleeding, Itching and Protruding Piles, Bucklen's Arnica Salve, is the best cure made." Also best for cuts, burns and injuries. 25c at E. S. Leadbeater & Sons Druggist.

Ground to Death.

W. H. Anderson, a Montgomery county farmer, met instant death at Willis Grist Mill, near Shawsville, Va., Monday. He carried a load of corn to the mill to have it ground. The miller had gone home and Anderson attempted to grind the grain. After filling the hopper he turned on the power, and in some way his clothing was caught in the gearing. His body was drawn through a set of cogs and finally into the mill rocks. Every bone in his body was crushed and the mill was stopped. As Anderson did not return home his wife gave an alarm and a search was instituted. The body was not discovered until midnight and the lifeless mass could not be extricated until the water was let out of the race and the machinery was reversed. Anderson leaves a widow and four children.

Epidemics of History.

In the twelfth century not less than fifteen epidemics of disease and many famines carried off the people of England. The thirteenth century saw twenty plagues and nineteen famines, while the fourteenth had a black record of disease. In 1348 the "black plague" or "black death," which was brought into the country from the east, caused the death of 100,000 persons in London alone, while in Europe altogether 25,000,000 people fell victims to its ravages. In 1485 the "sweating sickness" appeared in England, causing great destruction of human life. It reappeared at various intervals for a century thereafter. The last terrible visitation of the plague in England was in 1664-66, by which 100,000 lives were lost in London alone. This epidemic was followed by the great fire of 1666, which destroyed 16,000 houses, including all the most densely populated portions of the city. The rebuilding of London with some regard to sanitary laws appears to have put the first check on the epidemic diseases that had previously devastated its population.

Played What He Pleased.

Henry Smart, the English composer, played a fine organ in a London church, and his recital after service attracted much attention. But one morning after a selection from one of Mozart's masses a church warden came into the organ loft and "begged to inform Mr. Smart that they had decided that they could not have such jiggy stuff played in their church."

"Very well, sir," was the answer; "it shall be altered."

Next Sunday dirge-like sounds proceeded from the organ, and the warden congratulated the player on the solemn and elevating effect of the music. "I am glad you like it," answered Mr. Smart. "Doubtless if I play it a little quicker you will see the reason why it affected you." And, suiting the action to the word, the popular strains of "Jump Jim Crow" resounded from the organ. After this Henry Smart played what he liked.—London Telegraph.

Value of Walking and Riding.

A brisk daily walk or a ride on horseback beats any more elaborate forms of physical exercise for simplicity combined with efficiency. In walking, especially if the ground is somewhat undulating, a very large number of muscles are brought into natural and easy play, sufficient, at any rate, to stimulate the circulation, which in its turn compels full expansion of the lungs and due aeration of the blood. The professional or business man requires no more than this to keep him fit for his duties, provided he follows the ordinary rules of health in respect of bathing, eating, drinking and clothing. If he is afflicted with a sluggish liver, indigestion or inactivity of the alimentary canal as a whole, a man may derive more benefit to health on horseback. But that is really a curative form of exercise.—London Chronicle.

Pawnbrokers In China.

Pawnbrokers in China are the bankers of the people and could not be dispensed with. The poor Chinaman, unlike the poor European, does not wear his winter clothes until they are fit only to be discarded. When the Chinese officials order that summer clothing shall be donned, the poor Chinaman pawns his winter's suit, and with the proceeds, supplemented by a little cash, he redeems his previous summer garb or buys new attire. Pawnbroking, writes Mr. Cunningham in the Chinese Soldier, is to the respectable Chinaman of limited means a weekly round.

The Public Drinking Cup.

When it is necessary to relieve one's thirst abroad, if the cup be filled quite full and placed to the mouth in such a way that the rim will be about half an inch below the under lip, one can drink from the surface of the water. In this way no part of the vessel, to which some particles of poisonous matter may still be clinging, will touch the delicate skin of the lip. It is hardly necessary to add that the water which adheres to the mouth and below the lips should be removed by a handkerchief and not by the tongue.

Found a Cure for Dyspepsia.

Mrs. S. Lindsay, of Fort William, Ontario, Canada, who was suffering quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these Tablets, get well and stay well? For sale by Gibson & Timberman and W. F. Creighton & Co.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspepsia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle, with chronic stomach and liver trouble, but at last I won and by the use of Electric Bitters. In unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine."
